

Farwell Message

From Dr Lynne Macready

Dr Macready is retiring in December and would like to pass on this message to all the patients and team she has helped care for and work alongside, over the last 23 years.

The Orchard Partnership team will miss her very much and wish her a very enjoyable retirement! She will be very missed!

“

Dear Friends and Patients,

Many of you may well have already heard through the grapevine that I am retiring from the Orchard Partnership in December.

This has not been a decision that I have taken lightly. I feel honoured to have worked within a practice which firmly believes in personalised care for all our patients and despite recent significant challenges the whole team work really hard to continue to provide this.

It is very scary to think how quickly 23 years at Old Orchard Surgery has gone. I began as a GP Retainer shortly after having my twins and then became a partner 2 years later. To think we used paper notes and wrote many of our prescriptions by hand then!!!

With both Dr Harriet Meader and I moving on, there will be some changes, but Dr James Banfield and Dr Ali Corke will hold the fort brilliantly I am sure. We have a wonderful group of GPs, practice nurses, reception and administration staff who will all continue to strive to make sure the practice provides a high quality and personalised service. There will be two new experienced doctors joining us very shortly.

It has been a privilege to have been a GP, particularly here in Wilton. I feel honoured to have been given a snapshot into many of your lives and hope that you feel I have done my best to support you over the years. I will hold many memories (funny, happy and sad) of my time with you, and my working colleagues very dear.

”

Thank you everyone for all the support you have given me.

Dr Lynne Macready
